### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Dan Krieger on February 18, 2005. The applicant wanted to replace the abstract supplied by the examiner in the last supplemental Notice of Allowance with the one below.

The application has been amended as follows:

#### **ABSTRACT**

A patient support including a mattress, a load cell apparatus, and a frame having an intermediate frame and a weigh frame. The load cell apparatus is positioned relative to the intermediate frame and the weigh frame. The load cell apparatus includes a load cell, a mount, and a liner.

The applicant stated that he had not been consulted first before the examiner issued the last supplemental action in response to a printer rush inquiry from the Office of Publications (Publication's branch had complained that the Abstract was missing from the file). This applicant supplied abstract is being inserted to replace the previous abstract in order to address applicant's concerns that he was not consulted prior to the insertion of the previous abstract.
